Summary

Aspiring Data Analyst with a strong foundation in Python, SQL, and statistical analysis. B.Sc. Computer Science graduate from University of Delhi with hands-on experience building data-driven solutions and analytical projects. Skilled in transforming raw data into actionable insights using tools like Excel, Power BI, and Tableau. Passionate about leveraging data to solve real-world business problems.

Education

Ram Lal Anand College (RLAC), University of Delhi **Delhi**
Bachelor of Science in Computer Science — GPA: 6.486 CGPA *Nov 2021 – Mar 2025*
• Relevant Coursework: Data Mining, Machine Learning, DBMS, Data Structures, Statistics, Web Development

Kendriya Vidyalaya, Sawai Madhopur **Rajasthan**
Senior Secondary (Class XII) — 80.4% *Apr 2020 – Mar 2021*
• Coursework: Informatics Practices, Physics, Chemistry, Mathematics

Technical Skills

Programming Languages: Python, SQL
Data Analysis & Visualization: Pandas, NumPy, Matplotlib, Seaborn, Excel (Advanced), Power BI, Tableau
Database: MySQL, PostgreSQL, SQLite
Tools & Others: Jupyter Notebook, Git, GitHub, Google Sheets
Concepts: Data Cleaning, Exploratory Data Analysis (EDA), Dashboard Design, Statistical Analysis, Data Storytelling

Data Analysis Projects

IPL Data Analysis | *Python, Pandas, Matplotlib, Seaborn* **2025**
• Performed end-to-end exploratory data analysis on IPL match data (2008–2024) to uncover batting, bowling, and team performance trends.
• Identified top run-scorers, wicket-takers, and winning patterns using groupby aggregations and statistical summaries.
• Built 10+ visualizations (heatmaps, bar charts, trend lines) to communicate insights clearly to non-technical audiences.

E-Commerce Sales Dashboard | *Python, SQL, Power BI / Excel* **2025**
• Analyzed 50,000+ rows of e-commerce transaction data to track revenue, profit margins, and customer behavior by region and category.
• Wrote SQL queries to extract, filter, and aggregate sales data from a relational database for reporting.
• Designed an interactive dashboard with KPI cards, slicers, and drill-down visuals enabling business stakeholders to make data-driven decisions.

Food Waste Analysis – Anndata Platform | *Python, Pandas, Data Visualization* **Nov 2024 – Feb 2025**
• Analyzed food surplus and redistribution data from F&B establishments and charitable organizations to quantify waste reduction impact.
• Generated reports and visualizations that helped identify peak waste periods and high-impact donor-charity pairings.
• Presented data insights to support platform decisions, reducing food insecurity while minimizing unnecessary energy consumption.

Certifications & Achievements

Fundamentals of Digital Marketing | *Google Digital Garage* **Completed**
• Proficient in SEO, SEM, and Google Analytics for campaign performance measurement and data-driven marketing decisions.

Cyber Security Certification | *Tech Mahindra Foundation* **Completed**
• Studied network security, threat analysis, data protection best practices, and vulnerability assessment.

Personal Details

Gender: Male **Date of Birth:** 15 January 2004 **Languages Known:** English, Hindi
